

DUVILAX® VP

**Woodworking industry
Mosaic parquetry manufacture**

Composition:

A special homopolymer polyvinyl acetate dispersed adhesive. It is modified with filling agents, biocide and other additives. It does not prove any health or usage risks (no R-sentences and S-sentences).

Properties:

A cream-colored water dispersion with a characteristic smell. It is non-toxic, incombustible, non-explosive, posing no health or hygienic hazards and biodegradable.

Parameters:

Dry matter content	min. 59.0 %
Viscosity	2 500 – 5 000 mPa.s (Rheotest) 4 000 – 10 000 mPa.s (according to ISO 2555, Brookfield RVT)
pH value	4 – 6
open period	min. 4 minutes

Usage:

Duvilax® VP is a special dispersed adhesive used for manufacturing of mosaic parquetry. It is used for sticking of wooden lamellas on textile scrimms in large capacity lines. Before use it has to be watered down to appropriate consistency and thoroughly agitated.

Packing:

Packed in 35 kg PE -kegs; 125 kg PE- barrels; 200 kg steel barrels; 1000 kg plastic container.

Storage:

Duvilax® VP is stored in original, undamaged, closed packaging by temperatures from 5°C to 40°C and must not be exposed to direct sunshine.

Guarantee period:

6 months under the observation of storage conditions.

The given data are only of an informative character and are not complete. Before each use it is recommended to try an adhesive in concrete conditions. Further information can be obtained at:
